Junior Jobs - job platform

React · Rest APIs · Express · Node.js · MongoDB · JavaScript · HTML · CSS

Junior Jobs is a job platform for users to connect with companies - and apply for junior developer positions - and for companies to discover new talents to fill their vacancies.

The client runs on React while the server and the REST APIs run on Express.js.

The project has been showcased during the Hackshow on March 29th, 2023 in front of a live audience of 150 people and has been voted for the best project in the Web Development category.

About Me

Born and raised in Italy, my passion for technology and computers starts at a very early age. After teaching myself how to build basic websites with **Python** and **Django**, I decided to fully commit to web development and enrolled in Europe's finest **Bootcamp** at **Ironhack**.

I'm ready to bring my **positive** attitude and my **zealous** and **detail-oriented** work approach to the web dev industry.

Skills

- React
- Express
- Node.js
- Material UI
- MongoDB
- EJS
- Rest APIs
- HTML
- CSS
- Python
- Django
- Bootstrap
